Students are urged to choose a major by the end of the second semester. Some majors require a very prescribed course progression and delaying your choice might mean an extra year of coursework. Some majors have specific entrance requirements.

The 8-semester plan may not be accurate for declared second majors, depending upon the semester you declare. Complet of such additional major(s) could increase time to degree completion. If you declare a minor, you must work with your advisor to determine when the necessary classes are offered since you may not add additional time to degree completion

Major Notes

Individual Major Exploration:

The Faculty Advising Coordinators serve as additional resources for students exploring majors. Working with the Academic Success Center (ASC), these faculty members provide opportunities for major and minor exploration. In coordination with Career Development, students develop individual profiles, take interest assessments, observe classes in progress and participate in shadowing opportunities. In addition, students participate in Alumni Affair events specifically designed to assist in the exploration of majors and careers.

Career Development:

Located in BH 103, Career Development has an
